Regarding your recent proposal concerning funding for = Arctic Power, we have discussed this among ourselves and have come to the = following conclusions:

* There is a continuing role for Arctic Power in Alaska's energy = education effort. Accordingly, we propose to fund Arctic Power for = an additional year at $120,000 and will amend the Administration's = reappropriation language to reflect this. =20
* This sum should be utilized for the maintenance of a website and the = maintenance, analysis, and dissemination of information. The = principal audience for this effort will be the media, organizations, and = individuals

outside of Alaska. =20
* It is our understanding that Adrian Herrera will be retained by Arctic = Power at a monthly salary of $7,500 and that an additional $2,500 will be = utilized for information circulation and other functions related to = Adrian's responsibilities. =20
* We do not think that it is necessary for Arctic Power to re-open its = DC office. Employing available technology, the website and = other information functions can be performed in Alaska, hopefully using = your current office. =20
* It is our understanding that Arctic Power will maintain its Anchorage = office through funding sources other than the State grant. =20
* We do not propose to fund a sub-contractor to act as a liaison to = organized labor. We have developed other means to accomplish this = purpose, and the position of organized labor concerning ANWR is = pretty well known at this time. =20
* We would like to see Arctic Power expand its message to include = energy education generally. This message would include ANWR but = would be broader. The State's central message at this time is that = Alaska contains vast quantities of oil and gas which we are = ready and willing to supply to the nation. ANWR is an essential = component of this message, but other issues may be included from time to = time. =20
* Arctic Power's work should be coordinated with other State = sponsored efforts currently under way. Accordingly, we propose to = include Arctic Power in our various meetings/teleconferences with the = State's contractors and other allies involved in the energy education = campaign. =20
* Early next year, the State administration and Arctic Power should = assess progress to date and seek agreement on AP's future role. =

I hope that the above approach will be satisfactory to = Arctic Power. Please give me a call if you would like to discuss = this further.

I still need the following to get the Council going: contact info for Todd so we can discuss scheduling of meeting times/places; a list of the people who have been asked to serve on the Council (along with their contact info); and an updated list of all those who applied for the Council so they can be contacted to provide input and/or serve on sub-committees. I'm hearing rumors about who was appointed and that a press release is imminent, but I don't have the final list of members with contact info - and have nothing other than names for a couple of the Fairbanks and Wasilla members.

All -

FYI, the department will be launching a Health Council website to provide internet access to info on meetings of the Council, opportunities for public input, and ongoing work by the Council. Our plan is to have links on both the Governor's website and the department website to ensure stakeholders can find it easily.

Thanks for all your work on this Council. I look forward to receiving the information needed to get the Council up and working - and to delivering a report to the Governor and Legislature by January 1, 2008.

Governor,

I know it was drafted closely to how the national day of prayer proclamation was written. In talking to Michelle Fabrello on this about 2 weeks ago she stated that the Office of Faith Based Communities wrote the proclamation; that may have been Stephanie Wheeler. I believe they were trying to be diverse and reach out to all Alaskans. (Stan Tucker didn't care for the wording either).

I talked with Mark Campbell who was in Wasilla when Colleen Sullivan-Leonard read the proclamation there. He said pastors in Palmer did not read it

because of the passages I conveyed to you in a different email. He had already surmised that you had not seen the proclamation and said he would convey that message to the Palmer pastors. Your presence at the Unity Sunday service was key in folks being comfortable with this explanation. He said they came away confident that it would be rewritten for next year. I said I was sure it would.

This is a fabulous idea! I think if we shoot this from the perspective that the Governor has suggested (people's house - especially with teens in and out on a daily basis - should be alcohol free; Governor is setting the example for parents and families across the state to take a stand on this issues, etc), a video message of the alcohol being boxed up and removed can be used by many groups. It might even make the most sense to have it run as a PSA focused on prom and graduation safety issues for families. I'd hate to tie it to any one group, board, division, or department when it's an issue for all Alaskans.

Great work, Governor! Let me know how I can help.

Erika - would have the Govs Mansion's alcohol that's in the liquor cabinet boxed up and removed from "the People's House" downstairs in the public dining area? Here's my thinking: with so many kids and teens coming and going in that house, esp during this season of celebrationstt for young people - proms, graduations, etc, I want to send the msg that we can be - and "the People's House" needs to be - alcohol-free. There's a lot of booze there - its too accessible and may be too tempting to any number of all

those teens coming and going.

We need to send this sobriety msg. It can be sent via support from Native Sobriety Assns, M. A. D. D. , Healthcare Strategies Council, or whomever can also benefit from the vocal support that I can provide them through this action, then I'll do it.

Please feel free to pick and choose what may or may not work in your speech. It was great to sit down and write again. Whatever you say, Alaskans will be inspired by your message. This is your subject matter. These are the things you've been saying for years. These are just a few of the reasons I wholeheartedly support you and am honored to be a part of your administration. Keep up the great work, governor. Alaskans are proud of their leader. PS—I couldn't remember the exact biblical phase you mentioned, but I had "everything is fine" in mind when I wrote it.

Governor Palin Responds to VECO Guilty Pleas

May 7, 2007, Skagway, Alaska – While in Skagway, Governor Sarah Palin had the following to say regarding the guilty pleas from VECO executives in federal court this morning:

"To have this truth now, to know that some Alaskans willingly and knowingly participated and encouraged this corrupt behavior is disgusting," said Governor Sarah Palin. "It is truly unacceptable and I will work tirelessly to make sure this does not happen on our watch."

It feels like there are forces constantly against us in trying to travel on the state,s plane :). - just need to know if I should quit tentatively planning on using it or go straight to commercial air arrangements each time I travel.

I think she should take them to town. Call them out the way she did Randy. Damn, I would love to talk to you about this. She has to step up and be the leader now. She's the principal of capitol high and the football team did something wrong. What does the principal do? She calls and assembly and she reads them the riot act, the whole group is tainted by the actions of the people who actually did something wrong because they all play for the same team, they are all members of what is now, in the eyes of the people, a corrupt legislature. So she lets them all have it and then she does what every good parent would do, she gives them a chance to redeem themselves. The ethics bill is a good chance. Giving the inditees the chance to resign before they are pulled out of office and further embarass themselves, their office, and the state is another.

At some point soon she is going to have to start talking. This is her chance to take charge, but if you ask me I would say she has to hold a hard line. If she goes in there with sympathy for them she is never going to take control of the situation. I think the people are pissed and disgusted with the legislature, is she lets them off they will be just as disgusted with her.

Ok. Sorry if that is a bit of a rant. If you want an opinion from one of those people who didn't vote for your boss, but has come around to be part of that 90+ percent of people who think she's on the right track don't hesitate to ask me. I really want her to succeed. I think she is the right person for this job right now.

Subject: FYI- Telephone Switch over Thurs. 5/10 (Cisco IP)

Hello,

This Thursday at 2:00pm. the House will switch over to the new Cisco IP phones. These are the same phones used in the Anchorage offices, but we're the first location in Juneau to have them installed. I think we will also have wireless capabilities for the computers on Thursday.

Where would you like the wireless phone (only 1) upstairs? If I don't hear back I'll put it in the master bedroom.

Most of the intercom numbers will stay the same, but you'll have a new list on the phones. I can run through the basics of the "how tos" with the girls and make a cheat sheet to leave by the phones. There's also a hand out that will be under the phones.

Finally, the House will have decent phones instead of ones that are one step above the rotary dial!

Subject: thoughts for speech

Governor Palin,

Here are a few things I came up with last night, although I know you and the writing crew already have some things in mind. Please feel free to pick and choose what may or may not work in your speech. It was great to sit down and write again. Whatever you say, Alaskans will be inspired by your message. This is your subject matter. These are the things you've been saying for years. These are just a few of the reasons I wholeheartedly support you and am honored to be a part of your administration. Keep up the great work, governor. Alaskans are proud of their leader. PS—I couldn't remember the exact biblical phase you mentioned, but I had "everything is fine" in mind when I wrote it.

You're awesome.

Governor Palin,

Do you want to name the Student Regent and Student Commissioner on the same day? As we discussed, Privileged or Pe is the top candidate for Student Regent. Below are the two names sent forward for ACPE. I think Privileged or P is the better candidate. If you want more time on Student Commissioner, we can still get the Regent appointment out the door. I could have Privileged or Personal Ma come up to the office tomorrow for a few minutes so you can congratulate him OR I could just contact him myself and send the draft press release information to Meg.

Thanks guys,

Ivy

MESSAGE:

Dear Governor Palin,

My daughter, Julie M. Halvorsen, is a flight attendant with Alaska Airlines. She informed me that during

the campaign season she had met you twice on flights of hers. She also informed me that she, and her

husband Kevin, had watched you on telvision during the debates and they both liked your ideas, especially

those on education, very much.

My husband and I will be coming to Alaska during the third week of June. It will be our first trip. I

am not very much of an outdoor kind of girl. However, I am very interested in good

government, having

served on a Board of Education and a Charter Revision Commission, as well as having graduated both Julie,

and her older sister Jenny, from homeschool.

Would it be possible for me to meet you? Do you have any set time when you meet the public? Would I

need to schedule a particular time or would you have just a moment for me to have my picture taken with

you whenever we make it down to Juneau?

I realize that you are a very busy woman and I can tell from having watched your inauguration speech on

C-Span, that you are a very focused and dedicated woman. I would not expect you to take any time to

discuss the multiple issues of education or politics. I would just like to be able to have a picture to

show my boss, Atty. Dean Kilbourne, who happens to be the Democratic Town Committee Chairman in Bristol,

CT. As a fellow Republican, it would bring me great delight!

Sincerely,

Pattie DeHuff

Jacob from my office delivered a complete list of resumes and the draft press release to your office on Friday afternoon. Please let me know if it didn't arrive. Also, I don't believe Todd will be serving as an honorary chair, but perhaps Governor Palin or Mike can shed more insight on that decision.

I still need the following to get the Council going: contact info for Todd so we can discuss scheduling of meeting times/places; a list of the people who have been asked to serve on the Council (along with their contact info); and an updated list of all those who applied for the Council so they can be contacted to provide input and/or serve on sub-committees. I'm hearing rumors about who was appointed and that a press release is imminent, but I don't have the final list of members with contact info - and have nothing other than names for a couple of the Fairbanks and Wasilla members.

All -

FYI, the department will be launching a Health Council website to provide internet access to info on meetings of the Council, opportunities for public input, and ongoing work by the Council. Our plan is to have links on both the Governor's website and the department website to ensure stakeholders can find it easily.

Thanks for all your work on this Council. I look forward to receiving the information needed to get the Council up and working - and to delivering a report to the Governor and Legislature by January 1, 2008.

Erika - would have the Govs Mansion's alcohol that's in the liquor cabinet boxed up and removed from "the People's House" downstairs in the public dining area? Here's my thinking: with so many kids and teens coming and going in that house, esp during this season of celebrationstt for young people - proms, graduations, etc, I want to send the msg that we can be - and "the People's House" needs to be - alcohol-free. There's a lot of booze there - its too accessible and may be too tempting to any number of all those teens coming and going.

We need to send this sobriety msg. It can be sent via support from Native Sobriety Assns, M. A. D. D. , Healthcare Strategies Council, or whomever can also benefit from the vocal support that I can provide them through this action, then I'll do it.
